The journal appears monthly and is devoted to the publication of current research in integral equations, operator theory and related topics with emphasis on the linear aspects of the theory. The journal reports on the full scope of current developments from abstract theory to numerical methods and applications to analysis, physics, mechanics, engineering and others. The journal consists of two sections: a main section consisting of refereed papers and a second consisting of short announcements of important results, open problems, information, etc.

**50 reprints** of each paper will be supplied free of charge. Additional reprints cost per 50 copies:
1–2 pages sFr. 143.–, 3–4 pages sFr. 168,–, 5–8 pages sFr. 219.–, 9–12 pages sFr. 270.–, 13–16 pages sFr. 320.–. Prices for reprints exceeding 16 pages on request.

Manuscripts are reproduced directly by a photographic process, which excludes the possibility of subsequent alterations.
Authors are therefore requested when preparing manuscripts to observe the instructions printed at the end of the issue most carefully.

**Copyright**
It is a fundamental condition of publication that submitted manuscripts have not been published, nor will be simultaneously submitted or published elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations.
No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher: Birkhäuser Verlag, P.O. Box 133, CH-4010 Basel/Switzerland.
